

Serial No. 09/992,995

LISTING OF THE CLAIMS

1. **(Previously Presented)** A process of preparing a solvent based coating composition comprising mixing
 - A) at least one toner base comprising an acrylic polyol, a cellulose resin, a polyester polyol, and a pigment,
 - B) at least one connector base comprising at least one resin compatible with the resins mentioned in toner base A), and
 - C) at least one reducer base free of resins and pigments.
2. **(Previously Presented)** The process according to claim 1, wherein the compatible resin in the connector base (B) is selected from an acrylic polyol, a cellulose resin, a polyester polyol, a polyurethane polyol, a vinyl resin, a polyisocyanate, and/or mixtures thereof.
3. **(Previously Presented)** The process according to claim 1, wherein the toner base (A) comprises at least 25 wt. % on solids of resins and connector base (B) comprises at most 75 wt. % on solids of resins.
4. **(Previously Presented)** The process according to claim 1, wherein the toner base (A) and connector base (B) together comprise the following resins:
 - 10 - 40 wt.% on solids of cellulose resin,
 - 25 - 60 wt.% on solids of acrylic polyol,
 - 15 - 45 wt.% on solids of polyester polyol, and
 - 0 - 20 wt.% on solids of a compatible resin,the sum of the wt.% indicated for the resins always being 100 wt.%.
5. **(Previously Presented)** The process according to claim 1, wherein the connector base (B) comprises the same type of resins as toner base (A).

Serial No. 09/992,995

6. **(Previously Presented)** The process according to claim 1, wherein the connector base (B) comprises the same resins as toner base (A).
7. **(Previously Presented)** The process according to claim 1, wherein the process additionally comprises the step of mixing a cross-linker base (D) with toner base (A), connector base (B), and reducer base (C).
8. **(Previously Presented)** The process according to claim 7, wherein the cross-linker base (D) comprises an isocyanate hardener.
9. **(Previously Presented)** A process according to claim 1 wherein the coating composition prepared is a base coat composition.
10. **(Previously Presented)** A process according to claim 1 wherein the coating composition prepared is an interior coating composition.
11. **(Previously Presented)** A method of refinishing a car comprising preparing a base coat composition according to the process of claim 9 and applying the base coating composition to a car.
12. **(Previously Presented)** A method of finishing or refinishing the interior of a car comprising preparing an interior coating composition according to the process of claim 10 and applying the interior coating composition to an interior automotive part.
13. **Cancelled.**
